LEGAL.

Summons.

IN THE SUPERIOR COURT, IN AND for the County of Sonoma, State of California.

V. DILLON, Plaintiff, vs. Mrs. Maggie McDowell, widow of R. A. McDowell, John McDowell, Mary McDowell, daughter of Donald McDowell, Margery McDowell, Bell McDowell, Nancy McDowell, Christy McDowell, Alexander McDowell, son of Donald McDowell, Donald McDowell, son of G. A. McDowell, Defendants.

The People of the State of California send greeting to Mrs. Maggie McDowell, widow of R. A. McDowell, John McDowell, Mary McDowell, daughter of Donald McDowell, Margery McDowell, Bell McDowell, Nancy McDowell, Christy McDowell, Alexander McDowell, son of Donald McDowell, Donald McDowell, son of G. A. McDowell, Defendants.

You are hereby required to appear in an action brought against you by the above-named plaintiff in the Superior Court, in and for the County of Sonoma, State of California, and to answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this summons - if served elsewhere, within thirty days.

The said action is brought to obtain a judgment of partition of Lot No. 52, situate in the Town of Sonoma, Sonoma County, State of California, according to the rights of the respective parties; or, if partition cannot be had without material injury to those rights, then the premises be sold and the proceeds applied:

1st - To the payment of the general costs of this action.

2d - To the cost of reference.

3d - That the residue be divided between the parties in proportion to their respective interests, as above stated.

All of which will more fully appear from plaintiff's amended complaint on file here in to which special reference is hereby made.

And you are hereby notified that if you fail to appear and answer the said complaint, as above stated, the Plaintiff will apply to the Court for the relief demanded in the amended complaint.

Given under my hand and seal of the said Superior Court, in and for the County of Sonoma, State of California, this 13th day of July, in the year of our Lord one thousand eight hundred and eighty-eight.

BILIOUSNESS

"I unhesitatingly add my testimony to the great benefits to be derived from Simmons Liver Regulator. I was afflicted for several years with disordered Liver, which resulted in a severe attack of Jaundice. I had good medical attendance, but it failed to restore me to the enjoyment of my former health. I then tried the most renowned physicians of Louisville, Ky., but all to no purpose, whereupon I was induced to try Simmons Liver Regulator. I found immediate benefit from its use, and it ultimately restored me to the full enjoyment of health."

THE MECHANICS' INSTITUTE.

The exhibit from Sonoma county at the Mechanics' Institute Fair, which opens in San Francisco, August 7th, will be a most magnificent one. Every section of old Sonoma will be represented, as the Sonoma Valley Exhibit Committee have decided to join with the county in one grand exhibit. Last year Sonoma Valley exhibited independent of the county and in competition with the foremost counties of the State carried off the \$1000 premium for the best general exhibit. If one small section of Sonoma county could out rival such counties as Santa Clara and Napa, it is safe to predict that if every section of the county will stand in with each other this year, Sonoma county is bound to secure the first prize. All that is necessary to bring about this result is united action and hard work. We have the wine, brandy, fruit, vegetables, etc. If these are collected and put on exhibition by the 7th of August Sonoma county will carry off the laurels.

Dr. WELLINGTON W. CARPENTER, for many years a leading physician of Petaluma, but for some time past a resident of San Francisco, accidentally fell into the bay last Monday and was drowned. The deceased was a highly educated gentleman and a writer of no mean ability. Twenty-five years ago he was a frequent contributor to *Hutchings' Magazine*, the leading California monthly of those days and other publications of note.

It has been demonstrated by W. A. Walker of Yolo county, that lemons will grow from cuttings. At his residence in Biggs can be seen growing and flourishing young trees that were cut from the limbs of the lemon stock into a box of soil and then transplanted.

A PLAN is on foot at El Paso to transport claret in bulk direct from the California vineyards in tank cars to the principal Mexican markets, and let them go there through the final fermenting and refining process.

An Enemy of the Olive.

A destructive pest to the olive is likely to make its appearance this and during next month. It is a species of the fly with hard-shell wings (genus anthomyia). Its depredations are made by boring into the very heart of the tree, thus sapping and checking the vitality of it. Spraying the tree with a mixture of concentrated lye in proportion of three pounds to fifty gallons of water, in which has been dissolved one and one-half ounces of blue stone, will kill the insect without doing damage to the tree or fruit.

How to Treat Coverless Cans.

Now that the canning season is at hand, it may be of interest to our readers to know that cans that have lost their covers may be made to keep fruit in perfect condition. Fill the cans as if covers were to be screwed on, then simply lay over the top a piece of cotton batting, split, with the fuzzy side down, and secure it with a small piece of board, or anything else that will answer for a weight. A wad of cotton batting makes a cork that needs no sealing. No one need hesitate to treat the finest preserves in this way.

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with Headache, you are fidgety, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whisky, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alternative that will purify your blood, start healthy action of Liver and Kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at E. Wegner's Drug Store.

UP IN ARMS.

The grape-growers in Livermore Valley are going to try conclusions this season with the wine-makers and dealers. The price of grapes have been forced down by a combination of dealers to so low a figure that ruin is staring the vine-growers in the face, not only in the Livermore Valley but in all wine producing sections of the State. Last Saturday at a meeting held in Livermore the wine-growers resolved to demand \$20 per ton for grapes sold to wine-makers, failing in which they will convert them into the dried product, brandy, vinegar, syrup and anything else rather than let them go at lower figures. The crop this year will be an unusually heavy one and unless all the wine districts in the State stand in with the Livermore growers grapes will go begging at \$10 per ton. Executive Officer Wheeler of the Viticultural Commission, who has a large vineyard in Livermore Valley has just issued a circular letter urging upon wine-growers to co-operate for self-protection and join in with his district in an endeavor to so diminish the production of wine in the approaching vintage as to insure paying prices for grapes. He suggests that "one half the grapes produced in each locality shall be withheld from the wine-maker, unless the sale of the whole of any vineyard can be made at an average price to be decided upon as sufficient to compensate the grower in that district." Mr. Wheeler further says:

"It is estimated in some places to cost on an average \$15 per ton to raise and deliver grapes. If this be the price decided upon, let each grower sell one-half his crop at the best price obtainable, with the understanding that the other half can be sold only on condition that the price of the whole shall average \$15 per ton or over. This will induce each grower to demand a high figure for the first half in hopes of thereby becoming enabled to sell the balance. If the first half be sold low, the second half must reach an impossible figure to enable him to sell. Again, if there be any classification of grapes in the locality, only the most desirable vineyards will be made up entirely into wine. It is known that for many seasons difficulty is encountered in inducing vineyardists to join and remain true to a common understanding of this nature. This is the case particularly where the industry is in a prosperous condition, and when the regulation impose any serious penalty or expense on compliance; but here and now there exists a condition of affairs very different. If one-half the grapes be withheld from wine the price of this latter commodity, still plentiful in the cellars of the maker held unobtainable since last year, will advance in value. Thus the measure brings relief to the wine-maker as well. He, too, hails with equal pleasure this means of reducing production. To the producer of grapes there comes no penalty with the proposed plan, for at the low prices now promised for grapes there is little difficulty in disposing of the unsold half-crop by other means, among which are the following: (1) drying, (2) distilling, (3) vinegar-making, (4) selling fresh to local markets, (5) selling into cheap soup for domestic use or sale.

"By proper management dried grapes will net \$20 a ton, and the demand is growing. For distilling, \$7 to \$10 can be realized, which prices, when prices received for the other half are considered, would make the growers come out about even. Spoiled white wine sold for vinegar last year at 14 cents a gallon, and more was desired than could be had. Nearly all red grapes may be used for wine vinegar if pressed without fermenting, and a white wine obtained, the only kind desired for vinegar. This will bring the grower \$12 a ton. When known to be pure wine vinegar, at retail, brings from 25 to 50 cents a gallon. Local markets will take large quantities, if properly managed. Fresh grapes, shipped in bulk to San Francisco or large towns, have usually realized satisfactory prices. There is a large demand for grapes in bulk from Italians of San Francisco, who make from them a cheap wine. More fresh grapes will be used if offered at growers' prices. A healthful sirup may be obtained by boiling the juice or must of grapes. Many years ago, when grapes were low, growers found an important outlet by this means. The sirup was sold for domestic use in jars and kegs. This product is used in large quantities to sweeten ports, sherries, angelica, etc."

A Troublesome Weed.

Many of our vineyards are now quite weedy. In some the vines are too large to allow of cultivation while in others it could be continued. There are numbers of vineyards which are sadly in need of cultivation. As one rides through the district he can discern in a moment where the cultivation has been thorough and where lax. Some vineyards are yet a fresh green, while others are already getting yellow and dropping their leaves. This latter state simply denotes a loss of the moisture through the failure to break the capillary tubes in the soil. The moisture which should have gone into the vine escaped through these tubes into the air. Cultivation would have retained it. Weeds, too, consume the moisture, and should be cut down.

John G. Young, the well-known farmer who tills the Altamont hills, is wrestling with a weed. It is a species of wild morning-glory, the seed of which came in a bundle of trees a year or so ago. The first few plants which appeared were not noticed. They spread, however, and soon attracted Mr. Young's attention by their marvelous growth. When first noticed there was a patch four feet wide and six long. In another year, twenty times as much ground was covered, and still it spread. Nothing else could grow, and Mr. Young plainly saw that unless he took vigorous action, his ranch and the entire Altamont country would soon be one great garden of morning-glories. He first tried plowing and cultivation—but the weeds thrived all the better. Then he plowed deep, and stripped the entire patch of the surface soil to a depth of fourteen inches, picking out all the roots by hand. This checked the growth a trifle, but still undaunted, the weeds kept coming, and the hard bottom was soon covered with a fine crop. Even the loose dirt which he had piled in heaps yielded a good growth. Next he tried salt, and the result of this experiment he is now awaiting. Only a small section was salted, and if this succeeds, Mr. Young will soon see the patch wither. He is determined to conquer if it costs him time to do it. The salt brine remedy will doubtless prove effective, though it will unfit the land for other use for years to come.—*Livermore Herald.*

Sonoma County's Wealth.

The assessment roll of Sonoma county for the present year has just been completed, and the following figures show the taxable valuation of the county: Value of real estate other than city and town lots, \$13,918,400; value of improvements thereon, \$3,559,000; value of city and town lots, \$1,992,995; value of improvements thereon, \$2,653,515; value of personal property, exclusive of money and bonds, \$3,685,000; amount of money and solvent credits, \$4,485,985; total value of all property after deductions, \$26,265,120. The increase over last year's assessment is \$2,800,000.

A WOMAN'S WAY.

A little over six weeks ago Mrs. Fowler of 227 Ellis street, San Francisco, stopped in at a leading city druggist's to ask what effect Joy's Vegetable Sarsaparilla, about which she had heard so much recently, would have on her case of dyspepsia and indigestion. She was assured that in most cases it would relieve both. She was, however, so incredulous that she finally decided to try it. She was to be paid for unless it effected a cure. A proposition so startlingly practical has seldom, if ever, been made. The following is her own account of the convincing conclusion, and tell its own story:

Mrs. M. Fowler.

227 Ellis street.

A LUCKY TRIAL.

DEAR SIR: It affords me great pleasure to send you this voluntary statement of my experience in testing the merits of Joy's Vegetable Sarsaparilla. For the past five years I have been troubled with an exceedingly distressing case of dyspepsia and indigestion. It was so bad that I was unable to eat or drink, and my health was rapidly declining. I had tried many remedies, but all in vain. I was then advised to try Joy's Vegetable Sarsaparilla, and I did so. I had taken five bottles, and during that time my trouble had left me. Everything is working full and regular. In fact I have cleaned, purified and braced me up generally. I feel like a new man. You may rest perfectly free to use this as you see fit, or you can refer whom you please to me.

Ask for Joy's Vegetable Sarsaparilla.

One pint of the juice of Vegetable Sarsaparilla, peculiar to California, combining the most effective liver and kidney purifier, blood purifier, stomach regulator and vegetable laxative in existence. All druggists. \$1 per bottle; 6 for \$5.

A Warning.

The modes of death's approach are various, and statistics show conclusively that the Throat and Lungs than any other. It is probable that everyone without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and in a short time a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Boesche's German Syrup. It will give you immediate relief.

The Housewife in New York.

There are roofs, too, where something is always being fixed. Now it is a patch in the tin, which one roofer makes at a leisurely way, with frequent rests and pipes, while his chum sleeps in the shade of a chimney stack; then it is the telegraph lineman, setting up a frame to string wire on, and again a couple of bricklayers, with a trowel and a bucket of mortar, plastering up a chimney and making a day's work of what could be done in an hour. The fat man who hauls a mattress up the scuttle and takes a nap in the free air every evening from dinner to bed time will break his neck some day unless he reforms his habit of dressing and rolling around like a porpoise in a lively sea, and only a miracle will save the boy who raises a kite from some day walking backwards off the gutter and making a pancake of himself four stories below the young man with the absent expression who sits on the top of the chimney to contemplate the sunset and the stars must be a poet or in love. The young woman who brings a book up with her and sits in the scuttle to read it, while her lithe dog chases the sparrows and marks at the cat, would make a good match for him, one would fancy.

The cat, by the way, is the presiding spirit of all the roofs one sees from one's house. He is always grunting and scolding and lazy; he always has a disreputable look and a tough manner, and it would puzzle even the inspiration of Mne Dies Debat to tell in what house he belongs, for whenever he finds a scuttle open he goes down as calmly as if he had in his mind a special house and no other at all. He generally comes out again with more celerity, frequently followed by an old shoe or a beer bottle, or some kind of convenient missile, but as soon as he is on the roof again he regains his normal gravity, and sits down to wash his ragged fur and warm his bruises in the friendly sun.—*Alfred Trumble in New York News.*

The Freemasonry Among Car Porters.

As is well known to the traveling public, it is the custom to give the porter of a sleeping car a quarter each morning for his attention in shining shoes and brushing up the clothes of the travelers. Occasionally there is a man too mean to do this, and the porter cuts a notch in the heel of his shoe. This is a signal which all the other porters will recognize, and with a notch on the outside of the heel will not be blackened, as the owner is on the "D. B." list. Recently Ed Hewitt was a passenger on a Cincinnati Southern train and Conductor Kelly was telling him of this freemasonry among the knights of the brush. Ed, who is always generous with tips, showed so much interest in the matter that he kept asking questions that night and noticed them. Then he told a friend at the Burnet house about it, who engaged Barrister Hewitt in conversation on the subject, and much to his discredit, showed him his own shoes were notched. He tumbled to Kelly's joke.—*Cincinnati Enquirer.*

Notice to Perpetuate Testimony

In the Superior Court of the County of Sonoma, State of California, in and to the matter of application of ISAAC LIBBES and CHARLES J. BEHLOW to perpetuate testimony.

NOTICE IS HEREBY GIVEN THAT in pursuance of an order made by the Judge of the above-named Superior Court on the tenth day of May, 1888, authorizing and allowing the same, the testimony of Mrs. Anna M. Harding, residing in Sonoma County, State of California, will be taken in the above-entitled proceeding before F. Breitenbach, a Notary Public residing in the town of Sonoma, Sonoma County, State of California, at his office in said town, on WEDNESDAY, the 15th day of August, 1888, at 12 o'clock noon and at such other times to which the same may be continued.

The facts sought to be established by the said testimony are as follows, to-wit: That on or about the 22d day of December, 1873, the aforesaid Anna M. Harding, being then the wife of Isaac Harding, purchased of one Jahiah Clement for the consideration of four thousand dollars or thereabouts, that certain lot in the town of Sonoma, known and designated on the official map of the aforesaid town of Sonoma as out lot number (51d) five hundred and fifteen.

That the said consideration so paid was money which was the sole and separate property and estate of the said Anna M. Harding, and that the said property there by became, and was at all times thereafter while owned by her, the separate property and estate of the said Anna M. Harding, and that her husband, Isaac Harding, had no right, title or interest in or to the same.

Witness my hand and the seal of the above-named Superior Court of the County of Sonoma, State of California, this 10th day of May, in the year one thousand eight hundred and eighty-eight (1888).

(Seal of Court.) J. F. MUGREW, County Clerk and Ex-officio Clerk of the Superior Court of Sonoma County, California.

A young man went to call on a young lady the other evening and somehow he was quite late. She called his attention to the fact, remarking that when he came in she was "reclining sweetly in the arms of Morpheus." The young man added to the embarrassment of the situation by saying that he heard the fellow go out when he came in. Ex.

In the fierce struggle for existence which most of us are called to engage in, good health is of utmost moment. Any agent that will restore and build up the wasted energies becomes of inestimable value. Such an agent is Freese's Hamburg Tea. It increases the activity of the liver and kidneys, and stimulates the bowels, thus enabling the system to ward off disease.

THE MECHANICS' FAIR.

Sonoma Valley to Exhibit With the County.

The Sonoma Valley Exhibit Committee met at the City Pavilion last Tuesday afternoon to take measures toward making an exhibit at the Mechanics' Fair which opens in San Francisco on the 7th of August. The following members of the committee were present: Messrs. H. E. Boyes, T. S. Cooper, H. H. Granice, A. J. Hauer, Robt. Howe, R. A. Poppe and Vice-Chairman S. H. Shaw. E. A. Rogers of Santa Rosa, a member of the Executive Committee of the Sonoma County Fruit and Grape Growers' Association, to whom the active control of the Sonoma County Exhibit has been entrusted, was also present and addressed the meeting.
At the conclusion of Mr. Rogers' remarks a motion was made and carried that R. A. Poppe and M. K. Cady be recommended to the Honorary Commissioners for Sonoma county at Santa Rosa for appointment on the Executive Committee for Sonoma Valley.
It was also ordered that the Sonoma Valley Exhibit now in the rooms of the State Board of Trade, be turned over to Messrs. Cady and Poppe, to be by them loaned to the County Fruit and Grape Growers' Association for use in the county exhibit during the continuance of the Mechanics' Fair, with the understanding that at the close of the fair, it shall be returned to the State Board of Trade and that owners of articles in the Sonoma Valley Exhibit shall have the privilege to remove the same, as heretofore, by presenting an order signed by the Secretary. The sum of \$100 was also appropriated out of the funds of the Sonoma Valley Exhibit toward defraying the expenses of the exposition, to be expended under the direction of Messrs. Cady and Poppe, after which the meeting adjourned.

Sad Death.

Albert Oetli, a young man well known in this valley, died in Santa Barbara last Monday. Deceased had not yet reached his majority, being scarcely twenty years of age. About six months ago the young man enlisted as a private in the United States Army for three years. Later his company, which had been stationed at Angel Island, were ordered to Santa Barbara. On Saturday night last while doing guard duty he was taken with pains in the region of the stomach and was removed to the hospital. The following day he expressed himself as feeling much better. On Monday, however, to the surprise of his attendants, he suddenly became worse and at 4:30 p. m., breathed his last. Deceased was the son of Mr. and Mrs. F. Oetli, at one time proprietors of the Union Hotel in this place, both of whom died several years ago. Poor Al, he was a boy of generous impulses and kindly disposition and his sudden death among strangers in a strange place, cut down as he was in the flush of young manhood, is a sad commentary on the uncertainties of this life. Deceased leaves a sister and brother residing in San Francisco and scores of young friends and companions in Sonoma Valley to mourn his early demise.

New Paper.

We are in receipt of the first number of the Los Guilecos Herald. It is edited by Chas. E. Tarrant of No. 15 Post street, San Francisco, a former resident of this place. It is a neat six-column paper and reflects credit on the printers, Messrs. Palmer & Rey, No. 407 Sansome street, San Francisco. It is devoted to the interests of the new town of Los Guilecos, situated about 14 miles north of Sonoma. Charley, we welcome you into the journalistic field and wish the Herald a long and prosperous career.

The Sonoma Land Company Sued. A. J. Van Every of this place has sued the Sonoma Valley Land Company to recover \$1209.65 for work done in building an addition to the dining room of the Agua Caliente Springs Hotel.

W. P. Wilson and J. G. Marcy have also sued the same company, the latter for \$400 and the former for \$221, for material furnished and labor performed.

These suits are the outcome of the squabble between the directors of the above company, and the end is not yet.

No Germans or Irish Need Apply. The Sonoma County Land and Improvement Company at Los Guilecos advertise in their paper for a first-class American merchant to open a general merchandise store in that place. Can it be possible a race prejudice exists up that way?

Children.

Often need some safe cathartic and tonic to avert approaching sickness or to relieve colic, headache, sick stomach, indigestion, dysentery and the complaints incident to childhood. Let the children take Simmons' Liver Regulator and keep well. It is purely vegetable, not unpleasant to the taste and safe to take alone or in connection with other medicine.

HIS MISSION EAST.

Col. Donahue and the Chicago and Northwestern Road.

Speculation as to Colonel Donahue's railroad schemes in this section of the State is more active now than ever. Some time since it was asserted that the Southern Pacific Company were negotiating for his railroad interests in this county. This was promptly denied by Timothy Hopkins, the Treasurer of that company. But as railroad people seldom give their business away to the public, their statements of railroad officials cannot always be relied upon, for as a general thing they follow out that old proverb that "the truth should not be told at all times." The latest theory in regard to Col. Donahue's visit East, is given in the Examiner.

That paper says there are two gentlemen in San Francisco who assert that Colonel J. Mervyn Donahue is making strenuous efforts to get financial backing in the East to build a railroad in the Beckworth Pass. There are certain facts that are partial evidences of the truth of the statement. About eight or nine months ago Colonel Donahue sent a corps of surveyors into Plumas county, where the Beckworth Pass is situated. The surveyors worked there for some weeks, and it is said, prepared a report of a survey from the eastern State line of California, which is about at the point where the pass begins, to Oroville, the county seat of Butte county.

"Just previous to the time when Colonel Donahue had this survey made, there was another corps of surveyors in the pass. In whose employ this latter force was cannot be stated to a certainty, but it is generally believed that it was sent out by the Chief Engineer of the Chicago and Northwestern road. The fact of this force of surveyors being in the pass is said to have induced Colonel Donahue to promptly make a survey on his own behalf. The work cost him about \$3,000.

"For several years past Colonel Donahue has been very ambitious of developing his San Francisco and North Pacific property into a large railroad system. His great expectation was that some Eastern transcontinental line might make some agreement with him if his road could only be run across the State to its eastern boundary. How to do this has been the troublesome question.

"He now thinks, it is said, that a solution of the question has presented itself in the fact that the Chicago and Northwestern road will soon reach Boise City, and build a branch into California. Instead of letting that company build into the State, he wants to do the building and join it at the State line. To do this he is endeavoring to bond the road between here and Cloverdale for \$5,000,000."

Trial Jurors.

The following have been drawn as trial jurors from the various townships of the county:

Capt. J. K. Brown of the steamer Alameda, lying between San Francisco and Oakland, spent Sunday in Sonoma.

THE REPUBLICANS.

They Meet in Convention and Nominate a Ticket.

The Republicans met in convention last Wednesday in Santa Rosa to nominate a county ticket. The convention was called to order by S. I. Allen.
On motion F. W. Longuee of Petaluma was chosen Chairman and J. W. Rose of Healdsburg as Secretary. After the committees had been announced by the Chairman and the Committee on Credentials had made their report, the following resolutions were adopted:

Resolved, That we most heartily endorse the platform enunciated and set forth to the world by the Republican National Convention at Chicago, and that it presents the best principles for the government of the Union.

Resolved, That the course of our present Congressman, Thomas L. Thompson, has been inimical to what we believe to be the best interests of our entire country and especially inimical to the State of California and, that, as California is a member of a great family of states, its interests are as dear to the Union as are the interests of any other State and should be most jealously guarded and no one should represent our Golden State unless he stands firmly for all our interests.

Resolved, That, whereas, the State of California having an extended line of sea coast, it is of the utmost importance that the general government should take prompt and effective measures to securely protect us from foreign invasion; that our future representatives shall most energetically propose, and maintain all measures to that end.

After the resolutions had been adopted F. W. Longuee, the chairman, addressed the convention. At the conclusion of his remarks the nominations for Superior Judge were declared in order.

H. T. Fairbanks nominated S. K. Dougherty of Petaluma.

B. F. Campbell of Sonoma placed in nomination L. D. Latimer of Windsor.

S. K. Dougherty of Petaluma was nominated upon the first ballot, the vote standing, Dougherty 44, Latimer 31.

E. P. Colgan of Santa Rosa was nominated unanimously for Sheriff.

A. G. Burnett of Santa Rosa was nominated for District Attorney by acclamation.

Geo. F. Allen of Petaluma received the entire vote of the convention for County Clerk.

A. W. Dana of Cloverdale was nominated for County Treasurer without opposition.

W. I. Robinson of Cloverdale was nominated by acclamation for Recorder and Auditor.

Mr. Byrne of Santa Rosa received the nomination of Coroner and Public Administrator.

For County Surveyor B. F. Campbell was nominated W. K. Nichols of Santa Rosa. R. M. Swain placed in nomination N. V. Smith and J. H. Chenoweth nominated L. E. Ricksecker. The latter received the nomination, the vote standing as follows: Ricksecker 47, Smith 13, and Nichols 13.

J. S. Enos of Sonoma was unanimously selected as a delegate at large to the State Convention.

The Convention then resolved itself into Assembly districts for the purpose of nominating delegates to the State Convention. The following were named:

Twenty-third District—R. S. Logan, James McCaughey, James Reade Watson and W. D. Sink.

Twenty-fifth District—S. R. Rose, James McDonnell, H. T. Fairbanks, J. H. Knowles.

Twenty-fourth District—Thos. J. Ludwig, J. N. Bailhache, James Austin, R. H. Delafield.

Allen Galloway was nominated by the 23d Assembly District for Assemblyman; 24th district, Geo. F. Green. The 25th district did not nominate. M. K. Cady was nominated for Supervisor for the first district; M. E. Manting for second district; J. W. Stroud was nominated for Road Master for Vallejo township.

The ticket from a Republican standpoint is considered a strong one. The nominees are all good men and well fitted for the positions to which they aspire.

Change of Teachers.

Miss McMahon of Santa Rosa has been engaged by the School Trustees to take charge of the Primary Department of our Public School, made vacant by the resignation of Miss Annie Hendrickson.

Miss Wise of San Francisco will take charge of the room formerly presided over by Miss Ewing, while the latter will assume charge of the grammar room, to fill the vacancy caused by the resignation of Miss Emma Wilson.

Two Ways. Choose Which.

There are two usual ways of doing what Nature does not do completely, namely, to relieve the bowels. One is to swallow a drastic purgative which evacuates profusely, abruptly and with pain, the other is to take Hostetter's Stomach Bitters, the effect of which is not violent, but sufficiently thorough, and which does not gripe the intestines. If the first is selected the person employing it need not expect permanent benefit, and he cannot hope to escape the debilitating reaction which leaves the organs as bad or worse off than before. If, on the other hand, he resorts to the Bitters, he can only rely upon the restoration of a regular habit of body, consequent upon a renewal of a healthful tone in the intestines. Besides heartily relaxing the bowels, the Bitters arouses a dormant liver, imparts a beneficial impetus to the action of the kidneys, and counteracts the early twinges of rheumatism, a tendency to gout, and malaria in all its forms.

Glen Ellen Gossip.

At the Republican primaries held here last Saturday, James Law was elected a delegate to the county convention.

The county bridge at this place has been replanked, making travel over the same more secure.

C. H. Pond, D. D. G. P. of Healdsburg of the Order of N. S. G. W., was down last Saturday evening and installed the newly elected officers of Glen Ellen Parlor.

The excursion last Sunday was attended by about 500 persons. Enjoyment was the order of the day and no disturbances occurred.

Our hotels are crowded with guests and more coming. An additional hotel in town at this time of the year would be a great convenience.

The Republicans in this vicinity organized a club here last Tuesday, to be known as the Harrison Invincibles with Judge Zane as President and Henry Chauvet as Secretary.

County Gullings.

The Magnolia cannery of Healdsburg is employing 250 hands.

The report that Barclay Henley has deserted the Democratic party is denied.

Hugh S. Thompson, son of Congressman Thompson, has been appointed Clerk in the War Department at \$1,000 a year.

John Quinn, the supposed Petaluma victim of hydrophobia, it now transpires, is not afflicted with the rabies, but is insane.

The Petaluma cannery is putting up from 36,000 to 40,000 cans of fruit per day. Wagon-loads of women and children come in from the country every morning to aid in the work and all make fair wages. The daily expense amounts to about \$5,000.

Voting Precincts of Sonoma Township.

The Board of Supervisors have established the following voting precincts in Sonoma Township:

Glen Ellen Precinct—All the upper part of Sonoma township, bounded on the south by Hills creek on the west side of Sonoma creek, and Wilson's Dry creek on the east side of Sonoma creek.

Agua Caliente Precinct—All that part of Sonoma township south of and adjoining Glen Ellen precinct, and bounded on the south by lines as follows: First, beginning at the bridge over Sonoma creek; west of the city of Sonoma (known as the Clark bridge), and running thence west along the county road to the Bennett Valley road, thence due west to the Vallejo township line; second, beginning at said bridge and running thence east along the road to the west line of the city of Sonoma, thence north and east along the line of said city to its north-east corner, thence due east to the Napa county line.

Sonoma Precinct—All that portion of Sonoma township embraced within the corporate limits of the city of Sonoma.

St. Louis Precinct—All the remainder of Sonoma township.

An Explanation

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—today it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the liver which in performing its functions find it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

INDIAN UPRISINGS.

Sell Hamilton Thinks They Are Caused by Irresponsible Whites.
In this country it should be a truism to say that whatever is done for the Indian should be done by the Indian, by his assistance, if not wholly through his agency. He understands his race as another race can not. If Indian affairs were, as far as possible, in the hands of Indians; if the Indian Department were, as far as practicable, composed of Indians, we should have fewer Indian massacres, Indian uprisings, Indian scares. The civilized Indian, backed by the whole power of the United States Government, would be a mighty force, a potent object lesson to the wild Indian. Proof of this is found in the beneficial effects of the employment of Indians by Government as reservation police officers, United States Indian police and Indian scouts. I have the greatest mistrust as to the existence of Indian uprisings. The Indians are perfectly aware of the might of the United States. There is no reasonable doubt they want peace. They fear war more than we do. I believe that these Indian troubles are indeed very largely fomented by the greed of the white race; its insatiable desire for always deliberately designing trouble in order to possess themselves of Nabal's vineyard. When Fort Bufalo informs Bishop Whipple that he is known by almost every Western tribe, and that he is now more a warrior, but is trying to keep the peace among all his tribes, he is to be believed, and he ought to be used as a medium of peace and good-will. One such "uprising" as that among the Utes, quickly as it was seen through and put to shame, cost the Government more than would the salary of a commission for twenty years. The Creeks, the Cherokees, the Five Nations, have so strong an element of civilization that they could be brought to bear upon the wilder tribes with the greatest economy. Poor Buffalo know Colorado long before we ever heard of him. Peace seems now to be restored, but is any sufficient restitution made to the Indians who have suffered? Is any punishment meted out to the miscreants who in the name of law, and under the color of law, degraded the lives of the land in the eyes of the Utes? Is any thing done to deter other miscreants in other places from involving the Government in similar shame and loss? It ought to be understood that any person who brings the word of the Government into disrepute among the Indians is doing the greatest possible harm, is helping to shed blood. The lives of United States soldiers are as sacred as those of any other United States citizens, and to imperil their lives that lawless citizens may get possession of the fair Indian lands is murder in the first degree. *Gail Hamilton, in North American Review.*

DEEP-SEA WONDERS.

Some of the Strange Fish That Live at the Bottom of the Ocean.

"What an old fish!"

An old member of the Maritime Exchange was exhibiting in a bottle one of the queerest submarine monsters that the fancy could paint. It apparently had no beginning and no ending. One could hardly tell where its outlines left off, and the alcohol in which it was preserved began. It was like jelly. "It must be remembered," explained the owner, "that at the depth of one thousand fathoms the pressure upon a fish or any other body is equal to a ton to a square inch. These deep-sea looking fishes, that can be tied in a knot at the surface, at such depths are firm-bodied and vigorous. When fish, adapted by organization to these depths, are brought to the surface, frequently their bodies are ruptured, their viscera protrude, their eyes start out and they present the appearance of having suffered a frightful death. When the fish ascends and the pressure upon its body becomes less and less, the gases in its body begin to expand and the expansion causes the demoralized appearance of the fish. If the fish could be popped out of the sea in an instant, it would probably explode with a bang when it reached the surface.

"Just look at its jaws," continued the exhibitor. "When the fish are brought to the surface most of them appear to be soft, pulpy masses. The bones and muscles appear to be feebly developed. The tissues seem thin, weak and easily ruptured. These conditions, implying muscular weakness, are apparently inconsistent with the powerful shape of the jaws and the rapacious looking teeth of some of the predaceous fishes."

"How do they live?"

"That is hard to say. To the absence of light is due many of the most wonderful peculiarities of the deep-sea fish. Some of them are totally blind, having no eyes at all or mere rudimentary eyes. Others have huge eyes, so organized as to collect as many light rays as possible. Sunlight, it is said, does not penetrate to a depth of two hundred fathoms. If there is any light there at all it is the merest glimmer and below that depth there is absolute darkness.

"Now these deep-sea fishes being cut off altogether from the sunlight, many of them furnish their own light. They have no organized gas companies, but each furnishes his own light—carries a lantern, or torch around with him. They have organs that emit a phosphorescent gleam and shed light on their path. Some of them carry little torches in the form of tentacles that rise from the top of the head. Many of them have regular symmetrical rows of luminous spots on their sides."—*N. Y. Mail and Express.*

What is Being Done for the Orphans.

Rev. L. B. Payne, Superintendent of the Methodist Orphan Home, Macon, Ga., writes: We have had a great improvement in the health of our children by the use of Swift's Specific. We had among the children some who had scrofula, notably one case in which it was

UNMISTAKABLY HEREDITARY.

We got some of Swift's Specific and gave it to this case, and in a short while it was cured sound and well. It was as bad a case, I think, as I ever saw, and had been under excellent physicians with no permanent benefit. We have been giving it to all the children as a health tonic. We have four children and one seamstress who, for years have suffered intensely every spring with erysipelas, and though they have been taking Swift's Specific only in small doses as a health tonic, they all, without exception, passed through this spring without a touch of a complaint.

A young lady of the institution, who has been with us for years, has been troubled with a most aggravated rash ever since she was a child. She tried all the known remedies that are prescribed for it with no benefit; but she has been cured by taking Swift's Specific, and has had no return of the trouble. Treatise on Blood and Skin Diseases mailed free. THE SWIFT SPECIFIC CO., Drawer 3, Atlanta, Ga.

Consumption Surely Cured.

To the Editors—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and postoffice address. Respectfully, T. A. SLOCUM, M. C., 181 Pearl St., New York.

His Business Booming.

Probably no one thing has caused such a general revival of trade at E. Wegner's Drug Store as his giving away to his customers of so many free trial bottles of Dr. King's New Discovery for Consumption. His trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

The Occidental Hotel, under the management of Mr. R. D. Moore and his estimable wife, is growing in popularity every day.

1. It has been before the public now about ten years, and in that time has proved itself to be all that it has been represented.

2. It is purely vegetable, and DOES purify the blood and CURE disease, as it puts the kidneys, the only blood-purifying organs, in complete health.

3. It Cures Permanently. We have tens of thousands of testimonials to this effect from people who were cured years ago and who are well to-day.

It is a Scientific Specific,

was not put upon the market until thoroughly tested, and has the endorsement of Prof. S. A. Lattimore, M. A., Ph. D., Official Analyst of foods and medicines, N. Y. State Board of Health, and scores of eminent chemists, physicians and professional experts.

The testimonials printed by H. H. Warner & Co. are, so far as they know, positively genuine. For the past five years they have had a standing offer of \$5,000 for proof to the contrary. If you are sick and want to get well, use
